Profile

Hi, I am Kabir Ali from Bangladesh. Technology is a great passion of mine and I'm very interested in things like engineering, programming, network communications and computer science.

Writing code and creating new products is one of my favourite things to do, I really like the creativity and problem-solving that comes with it. I'm not only technical but also have a background in music production and skills in image and video editing, graphics and layout as well as social sciences.

I'm interested in full-stack development, since it allows you to put all of your skills to use and get a comprehensive idea of the entire project.

Professional Experience

Full-stack Developer, Novateus

11/2022 – present | United States

- Re-coded application using React, which shortened page load times by up to 65%.
- Migrated an application toward the cloud, reducing hosting costs for the client by 50%.
- Designed the application architecture on TypeScript, React and Redux and accelerated the development rates by 15%.
- Handled nearly 5+ production tickets per day, 100+ tickets per month with respect to live customer trouble ticket resolution.
- Contributed as part of a team that made a huge, enterprise app for our biggest client which is being used worldwide by the client's employees.

Senior Front-end Engineer, ScuTech

06/2020 – 09/2022 | United States

- Worked closely with the product team to build intelligent search functionality in React for an ecommerce site with a catalogue of 5000 products, leading to an increase in page views per session of 22%.
- Improved the page load speed by 15% for an e-commerce site by leveraging browser caching and improving server response times.
- Utilized the Node.js and GraphQL to create APIs for both internal and external use, reducing the time to ship new front-end features by 4% Fresh Direct.
- Built extensive test coverage for all new features which reduced the number of customer complaints by 7%.

Frontend Developer, BR Softech Pvt. Ltd

04/2018 – 04/2020 | Hong Kong SAR

- Developed product tours with React for a new feature, improving customer adoption by 25% leading to increased revenue by \$1M.
- Created a compatible, custom client dashboard, reducing support tickets by 45%.
- Worked with UX/UI design teams to improve existing applications and increase conversion rates by 20%.
- Supported the QA team to design test cases for various change requests and enhancement.

Education

BS in Computer Engineering, University of Dhaka

04/2014 – 10/2017 | Bangladesh
